

The 1st in the world dosed and balanced herbal teas

TEAYAN
EXCLUSIVE HERBAL TEA

TEAYAN
EXCLUSIVE HERBAL TEA
handcrafted in Armenia

ABOUT US:

TEAYAN is a small family business based in Armenia since 2018

With eight geographic, seven climates, nine altitudes, and sixteen soil zones, as well as over half of all plant species in the Transcaucasus and two-thirds of all bird species found in Europe, Armenia's small territory is a stunning biotops region.

The Armenian Highlands is the most central and the highest of the three plateaus that together form the northern sector of Western Asia.

Armenia is famous for its ecologically pure highlands, herbs, fruits and food. The Armenian Highlands are also rich in pure drinking water resources.

80% of TEAYAN bouquets include herbs and fruits, wild picked or grown in Tavush and Gegharkunik regions. These regions are out of mines and chemical factories. The highest point is 2993 m a.s.l.

TEAYAN Exclusive Herbal Tea introduces precisely dosed and harmoniously balanced herbal infusions, transforming your tea moments into pure delight. Carefully handpicked herbs are sourced from the pure landscapes of the Armenian Alpine Highlands, ensuring the highest concentration of essential oils for a truly exceptional experience.

OUR STORY:

Astghik Galstyan, the founder and the marketing director of TeaYan and her husband, Vardan Harutyunyan, the financial director at TeaYan, started the company in 2018.

Astghik was interested in local herbs since she was six and she started her journey by learning about ancient Armenian medicine and herbal mixtures.

Later she continued her career in the pharmaceutical industry for almost 15 years. However, she took leave from her job after her second child's birth. This was when she decided to create TeaYan Exclusive Herbal Teas, with a dream to introduce Armenian nature and herbs to the world.

She created the 1st in the world dosed and balanced herbal teas mixing the word TEA and YAN - the ending of armenian surnames.

Tea+Yan = TeaYan

"CREATING HEALTH IN EACH INFUSER"

TEAYAN
EXCLUSIVE HERBAL TEAS

OUR MISSION:

Our mission is:

- to improve life's quality engaging modern people among nature
- to spread Armenian tea drinking traditions around the world
- to combine health benefits with an enjoyable tea ceremony
- to create more job opportunities in Armenian provinces

“CREATING TASTE IN EACH INFUSER”

THE MANUFACTURING PROCESS:

The whole manufacturing process of TeaYan is handcrafted—starting from harvesting, processing the material, upto the final packaging.

We put our mixtures into special transparent (food grade, biodegradable) infuser bags, in order to make each petal and leaf visible. It makes our customer's tea ceremony enjoyable and comfortable both at home and at work. We do not melt and mix ingredients in container.

The dosage of each ingredient is maintained in each infuser bag individually.
